

RE-PRIVATIZE

SEEKING INFORMATION PRIVACY

This seminar/webinar will emphasize minimizing unnecessary visibility of your personal information through best practices and behavior modification. Participants will examine privacy laws and social networking providers' terms of service, then these means of risk reduction:

Account and Device Settings

- Privacy settings
- App permissions
- Location Services

The Browser

- Cookies
- Private Browsing
- Browser Compartmentalization

Records of Activity

- Personal Messages
- Search Engines
- Email Compartmentalization

Encryption

- Website Content
- Confidential Documents
- VPNs (Virtual Private Networks)

The session is 60 minutes in length plus time for questions.
Participants will receive a session summary PDF.

Steve Chapelle has been providing information privacy and security education to Canadian professional, parent, student and retiree organizations since 2006. Prior to that he spent over 20 years in information technology management, analysis and customer service, primarily in the financial services sector. Information management experience has included security, availability and disaster recovery planning. He is also an instructor and developer at the [Udemy](#) online course platform, and the author of 'No Decision: The 1919 Stanley Cup Final' about the Spanish Flu pandemic, available at [Amazon](#).
